

Application No. 10/566,164
Reply to Official Action of June 27, 2011

REMARKS/ARGUMENTS

Claims 1-17 and 45 are active.

Claims 15-16 are amended to remove the reference to “and/or at least one compound of the general formula (Ib)” thereby obviating the rejection applied under 35 USC 112, second paragraph.

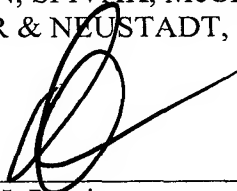

No new matter is added nor are new issues presented that would preclude entry of these amendments after a final rejection.

A Notice of Allowance is requested.
